

# Public Involvement Meeting

**WisDOT Project 2711-06-00/70  
County P  
WIS 145 – Sherman Road  
Washington County**

**Washington County Project  
County P  
Sherman Road – WIS 60  
Washington County**

**April 14, 2022  
5:30 – 6:30 pm  
Village of Jackson Municipal Complex**

**Thank you for your interest in this project, we look forward to your feedback.**

## **Welcome**

Welcome to the public involvement meeting for the upcoming improvement project along County P from WIS 145 to WIS 60 in Washington County. The meeting will be held in an open-house format, with a brief presentation scheduled for 5:45 pm.

The WisDOT funded project limits are from WIS 145 to approximately 300' north of Sherman Road. The Washington County project limits are from approximately 300' north of Sherman Road to WIS 60.

This handout and the exhibits on display are available to help familiarize you with the project details. We encourage you to review the exhibits. Representatives from Washington County, Wisconsin Department of Transportation (WisDOT), and Gremmer & Associates (design consultant), are here to receive comments and answer any questions you may have about this project. In addition to this handout, there is a sheet for your written comments and concerns about this project. You may drop your comment form in the comment box at the registration table tonight, or return by mail as noted on the form. We ask that all comments be returned by April 29, 2022.

## **Purpose of the meeting**

The objective of this meeting is to obtain your input on the identified needs and proposed improvements along the County P project corridor.

## **Purpose of the project**

The purpose of the project is to address a deteriorating pavement structure and cross culverts and evaluate the vertical geometry and sight distance of the roadway.

## **Proposed improvements**

Proposed improvements include reconstructing the roadway to improve vertical profiles, increase sight distances, add turn lanes, widen the paved shoulder, replace deteriorating cross culverts, and extend an existing box culvert to enhance safety and efficiency of the roadway.

The improvement project is currently scheduled for 2024 construction.

## **Proposed traffic impacts**

The project will be closed to through traffic during construction with a posted detour. Access to adjacent properties and for first responders will be maintained during construction. Brief interruptions in access may occur temporarily at driveways. The contractor will be required to notify homeowners and businesses prior to construction.

## **Real estate**

Minor right-of-way acquisition and temporary easements will be necessary at select locations along the project. Properties requiring real estate acquisition will be contacted by a separate real estate acquisition firm (on behalf of Washington County) in the future.

## Project update/next steps

- Public comment period April 14 – April 29, 2022
- Environmental document June 2022
- Final plans August 2023

## Public input/comments

Please forward your comments by **April 29, 2022, by:**

1. Filling out the comment form attached to this document and mailing it.
2. Emailing comments or questions to the contact listed below.

Your comments assist us in developing a project that will serve the needs of the traveling public as well as the needs of the local community. Your input is welcome and appreciated throughout the design process. For more information, please contact:
