

August 16, 2021

Dear Residents and Families:

We would like to thank you for your patience and cooperation during our outbreak and inability to allow visitors.

We received our facility-wide staff and resident test results back and we are pleased to announce that all test results came back negative!

- The 2nd floor was the affected unit; therefore, all residents must complete a 14-day quarantine. We will be able resume visitation on the 2nd floor on August 23, 2021. Compassionate care visits on the 2nd floor will be evaluated on a case by case basis while residents are in quarantine.
- The 1st, 3rd, and 4th floors were not affected, therefore we are able to resume indoor visitation, communal dining and small group activities on these units.

Samaritan continues to follow the Core Principles of COVID-19 Infection Prevention so we will need visitors to screen for COVID-19 signs and symptoms and perform hand hygiene upon entry, wear a mask, and socially distance.

We can't thank all of you enough for your flexibility, understanding and cooperation during this pandemic and all of its unknowns. We will keep you updated and informed if there are any additional changes. Please don't hesitate to contact me if you have any questions or concerns.
